

# APPLICATIONS OF THE PME BENCHMARKING METHOD

Live Online Classroom – 3 November 2026

This three-hour course provides a detailed demonstration of how the PME+ and mPME methods can be computed and used for benchmarking private market funds against indexes of listed assets.

Delivered by the developers of these methods, the course will equip you with the knowledge you need to run second generation PME methods for performance benchmarking purposes. Ample time is reserved at each step of the live course for interactive Q&A sessions with the presenters.

## PRE-COURSE PREPARATION

If the PME benchmarking method is new to you, we recommend that you first follow our **Principles of the Public Market Equivalent On-demand E-learning course** which provides an analysis of the performance measurement methodologies in private markets and shows how to practically apply the PME method. This self-study e-learning is a stepping stone to the more complex live course.
