

CREATING VALUE THROUGH DECARBONISATION

Live Online Classroom, 15 October 2026

The second in our sustainability series, this training will demonstrate best practices of measuring & disclosing carbon/climate performance, as well as the integration of target-setting in portfolio company business plans in a decarbonisation pathway. PE & VC practitioners will share value creation examples on decarbonisation and net-zero strategies.

The training is designed for PE & VC investment professionals and sustainability teams who would like to gain practical and actionable insights from industry experts and peers on how decarbonisation can be a value lever across the investment cycle.

Programme

Thursday, 15 October

SPEAKERS

Aga Siemiginowska is Head of Sustainability at **Oakley Capital**. She joined Oakley in 2020 and has over 15 years of experience in sustainability and environmental risk. Aga leads the sustainability team, and her focus is on the development and implementation of Oakley's sustainability strategy. Prior to this, Aga served as the interim Head of ESG at Permira. Previously, Aga spent 12 years as an environmental consultant, first at ERM and then at Ramboll. She holds an MSc in Nature, Society and Environmental Policy from Oxford University and a BA (Hons) in Geography and Political Science from Rutgers University, USA.

James Bone is a Partner based in **ERM's** London office. He is an experienced adviser to the finance sector on ESG matters including to private equity, banks and asset managers. James regularly advises on management and disclosure of climate-related financial risk and opportunity, including implementation of the FSB's TCFD recommendations. Prior to joining ERM, James was a Manager in KPMG's UK Sustainability Team. James holds a PhD in Environmental Pollution and an MSc in Environmental Technology both from the Centre for Environmental Policy at Imperial College London.

Louisa Mesnard is CMO and Head of Sustainability at **Elaia**. Her expertise includes marketing, content, branding, communities and PR. Before joining Elaia, Louisa was co-founder & COO of Citron. She then worked with corporates to develop their international intrapreneurship program. TedX speaker, she is very involved in the entrepreneurial ecosystem - especially through StartHer - and mentoring. Louisa graduated from ESSCA and HEC Entrepreneurs.

Lucia Mancisidor is Vice President, Investment Strategy & Risk Management at **Adams Street Partners**. Prior to this, Lucia was with Federated Hermes, where she was involved in directing ESG integration and the firm's sustainable investment strategy. Lucia started her career at the Boston Consulting Group in Madrid where she focused on the energy sector. She is a Spanish national and is an alumnus of the London Business School (LBS) and the Deusto Business School (DBS).

Erwann Le Ligné is Partner - Co-Head of the **Eurazeo** Planetary Boundaries Fund. He joined Eurazeo in 2006 after four years in acquisition finance. Erwann has participated in numerous investments and external growth transactions at the international level and specifically in the USA, Canada, Belgium, the United Kingdom and India. A contributor to the work of the AFIC's ESG commission, Erwann is also member of the Professional Standard Committee and Vice-Chairman of Invest Europe's Responsible Investment Roundtable. Erwann has a post-graduate degree in international management and DESS post-graduate degree in Finance.

Stefano Bonelli is Head of Decarbonization at **AXA Climate**. He leads AXA Climate's Low Carbon services, supporting major corporations and public institutions in their Low Carbon transition. His responsibilities include terms of product development/capacity building, business development, thought leadership and technical oversight. Prior to this, Stefano was Partner Corporate Sustainability & Climate Change at Environmental Resources Management (ERM). Stefano holds an Ms in Environmental Engineering from Politecnico di Milano and a PhD in Earth Sciences/Climate Modelling from UVSQ.

Renaud Thiard is Director Portfolio Performance within the Sustainability & Impact teams of Eurazeo. Previously, he worked as an environmental consultant and subsequently supported the transformation of several French and international industrial companies. Renaud now focuses on implementing sustainability and decarbonization strategies within portfolio companies, across a wide range of sectors such as services, real estate, and manufacturing. Renaud holds a dual engineering degree from École Centrale Paris and the University of Munich. He also holds the "ESG Investing" certification from the CFA Institute.
