

HIGHLIGHTS 2022

Events & Training

Invest Europe events are valued for their high-quality industry insights, open and balanced LP-GP debate, and excellent networking opportunities in a non-commercial setting. Our practitioner-led training offers opportunities for professional development for all industry participants, from new entrants to seasoned veterans, wherever they are located.

Highlights 2022

- 2022 marked a welcome return to a full programme of in-person events post COVID-19 crisis
- A highly successful Investors' Forum in March kicked-off a year of events that provided opportunity for debate, discussion and networking for members
- Rich conference programmes with top speakers and the latest data insights on navigating a changing economic environment
- Local Chair's dinners and international forums created extensive member networking opportunities

Join us at a conference this year - see our [event calendar](#)

Training

Our practitioner-led trainings offer opportunities for professional development for all industry participants, from new entrants to seasoned veterans, wherever they are located.

- Access to training programmes was further expanded in 2022 with the addition of new e-learning and live training courses
- A new live training course on Applications of the PME Benchmarking Method was launched, providing clear, practical guidance on the use of this performance benchmark
- Members' needs for more guidance were addressed through the launch of a suite of 3 courses on addressing climate change - a welcome adjunct to the member climate change guides
