

IPEV VALUATION GUIDELINES

Live Online Classroom, 1-3 July 2026

The focus of this training course is on understanding and applying the International Private Equity and Venture Capital Valuation Guidelines. The emphasis will be on practical examples, discussion of case studies and day-to-day challenges in adopting the guidelines. There will be particular attention to the distinctions for both venture capital and buyout firms.

The course is suitable to anyone involved in valuation and reporting in the private equity and venture capital industry, including financial officers from private equity firms, funds of funds or service providers.

To be able to follow the training effectively, participants should be familiar with common valuation techniques such as market approach (multiples, etc.), income approach (DCF), replacement cost approach (net assets), etc.

“The speakers provided an overview of everything you should consider when arriving at fair value, which was very helpful. I appreciated the exchange with other GPs during the sessions.”

SPEAKERS

Enguerran de Cremiers is a Managing Director in Valuation Advisory Services practice, at **Kroll**, based in Paris. He has more than 16 years of experience and is specialized in the valuation of illiquid securities and equity interests for alternative asset managers, family offices and financial institutions. Enguerran assists alternative fund managers in establishing valuation policies and procedures that meet investor and regulator standards of top-tier governance and independence. He provides independent and objective third-party valuations to validate that fund managers' valuations are fair and reasonable.

Erika Blanckaert is Senior Public Affairs Manager - Head of Sustainability at **Invest Europe**. She has been with the association for 20 years. She is involved in developing and communicating the industry's position on major EU Sustainable Finance legislation such as the Sustainable Finance Disclosure Regulation (SFDR) and Taxonomy Regulation. Erika also manages the Industry Standards function, guiding the agenda-setting work of the world's largest private capital association. In that role, she works closely with Invest Europe's ESG Committee - and its underlying Working Groups and Taskforces - to shape and promote ESG best practice to members.

Johnny Ratel is a Vice President in Kroll's Luxembourg office within the Portfolio Valuation team, advising AIFMs across private equity, venture capital, private debt, and infrastructure on the valuation of illiquid assets for financial reporting. With over 10 years of experience, he specializes in valuing diverse alternative asset classes, including equity, hybrid instruments, and private debt, and previously held roles at PwC Luxembourg and a third-party AIFM overseeing valuation and NAV processes. Johnny holds a Master in Management from NEOMA Business School and is a CFA and CAIA Charterholder, as well as FMVA certified.

Sam Chan is a Director in the London office of **Kroll** and a team member of the Portfolio Valuation service line within the Alternative Asset Advisory business unit. Sam focuses on assisting alternative investment managers, including private equity, venture capital and other industry-specific investment funds. Sam has extensive experience in the valuation of a range of alternative asset classes, including portfolios of illiquid common equity, preferred equity, convertible preferred equity and hybrid instruments. Sam is an ACCA Chartered Accountant, a member of HKICPA and a CFA charter holder.

Svetlana Melnik is a Senior Manager, CS at Gen II Luxembourg Services. She brings over ten years of experience in financial reporting, accounting and AIFMD reporting to her role at Gen II. Svetlana is responsible for financial accounting and reporting for a portfolio of clients. Previously, she worked as a manager for a major international corporate services provider. Svetlana holds a degree in Finance and is a Fellow of Association of Chartered Certified Accountants (ACCA). Upon ACCA graduation, she received an Award for outstanding ACCA academic achievement from Jersey Society of Chartered and Certified Accountants.

Vasileios Perakakis is a Managing Director in the Portfolio Valuation practice of **Kroll**, based in London. He has extensive experience assisting a wide variety of alternative investment managers (private equity, hedge funds, private debt funds and other industry-specific investment funds worldwide) in the valuation of a range of alternative asset classes, including portfolios of illiquid private debt instruments, common and preferred equity, asset-backed securities, distressed investments, securitizations, contingent claims and other structured products.

Yueting Xiong Yueting Xiong is a Vice President in the London office of Kroll and a team member of the Portfolio Valuation service line within the Alternative Asset Advisory business unit. Yueting is specialized in valuation of private debt but also performed valuation on a variety of financial instruments. She performs valuation on senior and subordinated performing loans (private debt), NAV Facilities, distressed debt, non-performing loans, asset backed securities, mortgage-backed securities. She also has extensive experience in the valuation of common and preferred equity shares (private equity), special situation investments, warrants and fund interests. She gets a broad exposure of different industries including real estate, infrastructure, aviation and marine transportation industry.

“The training was a good overview of IPEV methodology and best standards which can be applied on a day-to-day basis.”
