Invest Europe verification process

Invest Europe verification process

What is checked:

- All metrics and units defined precisely as in conceptual framework
- Clear to users what metrics are necessary for completion of Invest Europe framework
- Opt-in or other functionality for clients to contribute their ESG data to Invest Europe, (through the European Data Cooperative) is provided.

What is checked:

- All metrics and units defined precisely as in conceptual framework
- Clear to users what metrics are necessary for completion of Invest Europe framework
- Compliant MRF CSV files can be generated and exported (multiple will be generated and tested)
- Issues with MRF generation should be raised at generation
- If applicable, compliant MRF CSV files can be imported. Issues with files should be presented to users in a user-friendly manner.

Call with Invest Europe

To address any outstanding issues and finalise approval.

Call with Invest Europe

To address any outstanding issues and finalise approval. You will also be asked to screen share and run the Invest Europe validator code locally.
